

FURTHER EDUCATION PROGRESS REPORT

Name: _____

Age: 18

Photo:

Date of Birth: 2000/5/11

Current course studying: +2, Science (Biology)

College/University: St. Xavier School, Jawalakhel (SXT)

Year Started: 2016

Year Finishing: 2017-2018

What course are you planning to study next and at what college?

I am planning to study MBBS, at St. Xavier College (SXC), Maitighar.

How many years is the course?

It is a four years course.

What interests you most about your studies?

I am fond of reading course books. English is my favourite subject.

I enjoy the practicals of biology, physics as well as chemistry.

What interests do you have outside college?

Outside college, I am interested in carrying out motivational programmes for junior students. I am fond of visiting different places too.

Tell us a little about your family and what challenges you face:

Since there are nine members in my family, I am facing economic problems which has become a source of hinderance in my studies. There is also lack of proper environment for studying due to having congested and small house.

Do you work to support your studies? If so what work do you do?

No, I donot work to support my studies. I am still studying which makes me busy everytime.

Career Aspirations:

With an aim of being a doctor, I am going on with my studies upto my optimum ability. Being a doctor, I will open health servicing institutions through which, I will work my level best to provide proper health services usually in the poorer and rural part of the country. Providing health services to the women and orphans will be my first priority.

PTO

Do you have any ideas how you could pay forward for the scholarship if it is granted?
This may be in the form of volunteering at St Xavier's school or contributing to a fund to help students in similar circumstances to yourselves in the future.

As I am also struggling hard to complete my studies and to build up my future, if I am granted the scholarship, then I will certainly try my best to contribute more and more to the students like me to build up their future too. I am thinking about contributing to a fund to help the students in their studies after I build up my career and after I become a good jobholder. In free time or during my holidays and vacation, I will also stretch my hands towards volunteering at St Xavier's school. Since, carrying out motivational programmes is one of my interests, I will carry out career counselling programmes to raise the ability of the students.

Please provide any other information that could be helpful for your grant application.

PLEASE ATTACH YOUR LATEST EXAM RESULTS

It is very important that you email the form to jmbeducationfund@gmail.com and the SXG Principal by end of November.
